

THE NATION'S TOP THERAPISTS

That's what RehabCare offers to the world of rehabilitation. To support this lofty claim, RehabCare recognizes how important it is to support you in all your professional development activities. Whether it's a CEU course, dues for your professional association, or annual licensure fees, RehabCare wants to help you advance in your career.

To support your career development, a special fund — a Professional Choice Account (PCA) — has been set up in your name.

PROFESSIONAL CHOICE ACCOUNT OVERVIEW

- *All full-time and part-time RehabCare clinicians are eligible to participate. On-call clinicians are not eligible.*
- *Eligibility begins on the 91st day of employment.*
- *PCA amounts are higher for full-time associates and increase with length of service.*
- *Your PCA can be used at your discretion to fund professional development courses, state and national licensure requirements, professional association dues and trade journals/textbooks.*
